The International Journal of Energy and Environment (IJEE) is the official journal of the International Energy and Environment Foundation (IEEF). The journal is a multi-disciplinary, peer-reviewed open access journal, covering all areas of energy and environment related fields that apply to the science and engineering communities. The journal enjoys the full support of the IEEF, who provide funds to cover all costs of publication, including the Article Processing Charges for all authors. Therefore the journal is both free to read and free to publish in for everyone. IJEE aims to promote rapid communication and dialogue among researchers, scientists, and engineers working in the areas of energy and environment. The journal provides a focus for activities concerning the development, assessment and management of energy and environment related programs. The emphasis is placed on original research, both analytical and experimental, which is of permanent interest to engineers and scientists, covering all aspects of energy and environment. It is hoped that this journal will prove to be an important factor in raising the standards of discussion, analyses, and evaluations relating to energy and environment programs. All manuscripts with significant research results in the areas of energy and environment and their application are welcome. The scope of the journal encompasses the following:

**Energy**
- Fuel cells and their applications.
- Hydrogen energy.
- Photovoltaic technology conversion.
- Solar thermal applications.
- Wind energy.
- Hydro energy.
- Biomass and bioenergy.
- Wave and tide energy.
- Geothermal energy.
- Fuel flexibility and alternatives.
- Micro- and nano-energy systems and technologies.
- Hybrid / integrated energy systems.
- Energy conversion, conservation and management.
- Energy efficient buildings.
- Energy generation and energy storage.
- Energy modelling and prediction.
- Energy and sustainable development.
- Energy efficiency and sustainability inherent in heritage places.
- Fluid mechanics and thermodynamics, including CFD, heat transfer and combustion.

**Environment**
- Energy and environmental impact.
- Thermal, acoustic, visual, air quality building science and human impacts.
- Eco-design of energy-related products.
- Green electric and electronics.
- Solutions for mitigating environmental impacts and achieving low carbon, sustainable built environments.
- Technologies and integrated systems for high performance buildings and cities.
- Tools for the design and decision-making community, including tested computational, economic, educational and policy tools.
- Environment and sustainable development.
- Quality assurance / control.
- Emissions reduction.
- Waste management.
- Evaluation & management of environmental risk and safety.
- Advanced visualization techniques, virtual environments and prototyping.

**A note to authors**

**Submission of articles**

Submission of an article implies that the work described has not been published previously (except in the form of an abstract or as part of a published lecture or academic thesis), that it is not under consideration for publication elsewhere, that its publication is approved by all authors and tacitly or explicitly by the responsible authorities where the work was carried out, and that, if accepted, it will not be published elsewhere in the same form, in English or in any other language, including electronically without the written consent of the copyright-holder. The submitting author is responsible for obtaining agreement of all co-authors as well as any sponsors’ required consent before submitting a paper. Responsibility for the content of a paper lays on the Authors and not on the Editors or the Publisher. All authors must complete the 'Journal Copyright and License Agreement' before the article can be published. Authors are encouraged to use the IEEF Document Template for preparing manuscripts for submission. The Paper Template represents the author guidelines and desired layout final manuscript of International Journal of Energy and Environment (IJEE). Full instructions can be found on the journal homepage (http://www.IJEE.IEEFoundation.org).

**Your Submitted Article**
- Your article will be peer-reviewed and if accepted will be published very fast.
- Your biography will appear at the end of your article.
- Your article will be published free of charge. The Authors do not pay any kind of publication fees.
- Your article will be published around the world in full color. Free use of color where this enhances the article.
- Your article can be read by potentially millions of readers, which is incomparable to publishing in a traditional subscription journal. All interested readers can read, download, and/or print your article at no cost!
- Your article will obtain more citations.
- Moreover, all articles are indexed by the major indexing media therefore providing the maximum exposure to the articles.

INTERNATIONAL JOURNAL OF ENERGY AND ENVIRONMENT
SPECIAL ISSUE ON APPLIED MECHANICS RESEARCH

Edited by

Muhammad Al-Waily
Mechanical Engineering Department, Faculty of Engineering, University of Kufa,

Assistant Editor

Hyder M. Abdul Hussein
Mechanical Engineering Department, Faculty of Engineering, University of Kufa,

Editorial Advisory Board

Muhsin Jweeg
College of Engineering, Al-Nahrain University,
Baghdad, Iraq.

Ihsan Y. Hussain
College of Engineering, University of Baghdad,
Baghdad, Iraq.

Ameen Ahmed Nassar Al-Edani
College of Engineering, University of Basrah,
Basrah, Iraq.

Ayad Murad Takak
Mechanical Engineering Department, College of
Engineering, Al-Nahrain University, Baghdad, Iraq.

Kadhim Kamil Resan
College of Engineering, Al-mustansiriya University,
Baghdad, Iraq.

Mohsin Abdullah A. Al-Shammari
College of Engineering, University of Baghdad,
Baghdad, Iraq.

Abdul Kareem F. Hassan
College of Engineering, University of Basrah,
Basrah, Iraq.

Abdul Kareem Abdulrazzaq Jawad
Mechanical Engineering Department, University of
Kerbala, Kerbala, Iraq.

Ahmed M. Hasson
Mechanical Engineering Department, College of
Engineering, Al-Nahrain University, Baghdad, Iraq.

Jawad Kadhim Oleiwi
Materials Engineering Department, University of
Technology, Baghdad, Iraq.

Hayder Y. Ahmad
MIMechE, CEng, 81 Suffolk Road, Harrow, HA2
7QF, UK.

Mahmud Rasheed Ismail
Mechanical Engineering Department, College of
Engineering, Al-Nahrain University, Baghdad, Iraq.
Contents

A prediction study for the behaviour of fuel cell membrane subjected to hygro and thermal stresses in running PEM fuel cell.
Maher A.R. Sadiq Al-Baghdadi 189-200

A suggested analytical solution of buckling investigation for beam with different crack depth and location effect.
Muhannad Al-Waily, Alaa Abdulzahra Deli 201-216

Effect of fluid damping on vibration response of immersed rotors.
Mahmud Rasheed Ismail, Mustafa Asaad Hussein 217-228

Theoretical analysis of fundamental natural frequency with different boundary conditions of isotropic hyper composite plate.
Abdulkareem Abdulrazzaq Alhumdany, Muhannad Al-Waily, Mohammed Hussein Kadhim 229-240

Primary instability regions of square plates subjected to uniaxial in-plane periodic compression load.
Ahmed A. Al-Rajihy, Abdulkareem Abdulrazzaq Alhumdany, Adil Habeeb Al-Hussaini 241-252

Mechanical and thermal stresses analysis in diesel engine exhaust valve with and without thermal coating layer on valve face.
Maher A.R. Sadiq Al-Baghdadi, Sahib Shihab Ahmed, Nabeel Abdulhadi Ghayadh 253-262

Optimization of Ni-Ti-Cu shape memory effect using minitab program.
Dania F. Abbas, Kadhim K. Resan, Ayad M. Takhakh 263-268
